PERSONAL PROFILE

I am a software developer with robust problem-solving skills and proven experience in creating and designing software in a test-driven environment.

WORK EXPERIENCE

Fullstack Engineer

Coval Group - PayVest Global - Fusepay | Oct 2020 - present

- Develop and implement software solutions based on client requirements
- Test and refine software prior to rollout
- Check feasibility of software prototypes
- Modify code to fix errors

Software Engineering Intern

Hotels.ng Internship | Jun 2020 - Aug 2020

- Collaborated with other developers and designers to finish weekly tasks aimed at improving our design and development skills.
- Managed complex projects from start to finish

Frontend Developer

Softicu Tech Hub | Sep 2019 - Feb 2020

- Structured, wrote and maintained multiple project codebases
- Converted whiteboard ideas, solutions from wireframes and final designs into code
- Translated requirements into polished, high-level designs

EDUCATIONAL HISTORY

Michael Okpara University of Agriculture
BSc Mathematics | Sep 2017 - September 2021

- Completing 8 Semesters towards a degree in Mathematics

AspireLabs Tech Hub
Web Development Training | January 2019 - June 2019

- Studied and practiced web development using HTML/CSS and JavaScript.
- Worked with the mentors and other interns to maintain and develop websites and apps for the company.
- Helped to train young kids on software development technologies and practices.

PERSONAL PROJECTS

Grafo (in-progress)
Stack: React, Node.js, MongoDB

- A website/app for African writers to publish their thoughts in a mini-blog.

Bankee (in-progress)
Stack: React-Native, Firebase

- A mini banking app based on a UI design I found on Behance.
